Cembrit Patina Signature

The representation of colours may deviate from the original product colours.

Cembrit Patina Signature is based on the popular Patina Original and the rustic Patina Rough, together offering you a new design on a base of legacy and trusted quality.

Your design can be embossed in two ways – adding a new type of expression to the building – and serving as a true reflection of your creative vision.

- Option 1: Patina Rough being the most dominant.
- Option 2: Patina Original being the most dominant.
